PROFESSIONAL SUMMARY

Backend Developer with 2.5+ years of experience building scalable web applications using Node.js, Express, and MongoDB. Experienced in designing REST APIs, authentication systems, and database optimization. Passionate about distributed systems, cloud technologies, and writing clean, maintainable code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python

Frontend: React.js, HTML, CSS, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, PostgreSQL

DevOps & Tools: Docker, Git, Redis, Postman, Linux

Cloud: AWS (EC2, S3)

Concepts: REST APIs, JWT Authentication, MVC, Microservices

WORK EXPERIENCE

Backend Developer

SoftByte Technologies | June 2023 – Present

- Developed scalable REST APIs serving over 50,000 monthly users.
- Built authentication and authorization using JWT and role-based access.
- Integrated Redis caching to improve API response times.
- Optimized MongoDB queries reducing average latency by 35%.
- Collaborated with frontend and DevOps teams for production deployments.

Software Engineer Intern

CodeCraft Labs | Jan 2023 – May 2023

- Developed reusable backend modules using Express.js.
- Created CRUD APIs for inventory management.
- Wrote unit tests and fixed production bugs.
- Participated in Agile sprint planning.

PROJECTS

AI Resume Builder

- Built an AI-powered resume tailoring application using Gemini API.
- Generated ATS-friendly resumes based on job descriptions.
- Exported resumes as PDF.
- Stored user profiles in MongoDB.

Task Management System

- Built a full-stack project using React, Node.js, Express, and MongoDB.
- Implemented JWT authentication.
- Added real-time notifications using Socket.io.
- Dockerized the application.

EDUCATION

Bachelor of Technology in Computer Science

MIT World Peace University

2023
